## Intro

I'm Thang - a FE Developer with 3+ years experience and currently working at Sutrix Solutions company as a FE Team Leader. I have a lot of experience in leading strong teams, developing new & exciting features in the creative process, manage many projects at a time with very aggressive deadline under high pressure.

Having a good taste in designing, I love making professional design work, creative campaign concepts. I'm interested in awesome animations with high performance.

With a responsible and innovative mindset, I seek to further improvement and leverage my knowledge in designing, building websites as well as frontend libraries like Angular, React,... I look forward to working in a resourceful and dynamic environment where I can fully utilize my abilities for the development and the benefit of the organization.
